#### INDEPENDENT AUDITORS' REPORT

Mayor and the City Council City of Somerset Somerset, Kentucky

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Somerset, Kentucky as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively, comprise the City's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Somerset, Kentucky, as of June 30, 2015, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

To the Mayor and City Council City of Somerset, Kentucky Page 2

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and pension schedules on pages 3–11 and 44-51 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the City of Somerset, Kentucky's basic financial statements. The combining nonmajor fund financial statements and proprietary statements of revenues and expenses – budget to actual are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

The combining nonmajor fund financial statements, proprietary statements of revenues and expenses – budget to actual and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 2, 2016, on our consideration of the City of Somerset, Kentucky's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Somerset, Kentucky's internal control over financial reporting and compliance.

### Management's Discussion and Analysis

Our discussion and analysis of the City of Somerset, Kentucky's financial performance provides an overview of the City's financial activities for the fiscal year ended June 30, 2015. Please read it in conjunction with the City's financial statements.

## FINANCIAL HIGHLIGHTS

- \* Total assets increased from \$145.72 million in 2014 to \$154.61 in 2015
- During the year, the City's business type activities generated net revenues of \$6.04 million which was primarily transferred to the general governmental activities.
- Due to GASB accounting rules, the City had to state over \$19 million in unfunded liability for future pension cost.
- Of the major business components, natural gas, sanitation and water continued to generate adequate revenues compared to expenses. EMS and water park continue to generate less revenue than expenses. However, changes made after June 30, 2015, particularly at the water park, to decrease expenses and increase revenue will have a very positive financial impact for FY 2016.

## USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities of the City as a whole and present a longer-term view of the City's finances. Fund financial statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the City's operations in more detail than the government-wide statements by providing information about the City's most significant funds.

## **Reporting the City as a Whole**

## Government- Wide Financial Statements

One of the most important questions asked about the City's finances is, "Is the City as a whole better off or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information about the City as a whole and about its activities in a way that helps question. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the City's net position and changes in them. You can think of the City's net position-the difference between assets and liabilities-as one way to measure the City's financial health, or financial position. Over time, increases or decreases in the City's net position are one indicator of whether its financial health is improving or deteriorating. You will need to consider other nonfinancial factors, however, such as changes in the City's property tax base and the condition of the City's roads, to assess the overall health of the City.

In the Statement of Net Position and the Statement of Activities, we divide the City into three kinds of activities:

- Governmental activities-Most of the City's basic services are reported here, including the police, fire, emergency medical services, fuel center, water park, cemetery, public works and parks departments, as well as general administration. Property taxes, franchise fees and state and federal grants finance most of these activities.
- Business-type activities-The City charges a fee to customers to help it cover all or most of the cost of certain services it provides. The City's gas, water, wastewater and sanitation departments are reported here.
- Component unit-The City includes a separate legal entity in its report-Downtown Somerset Development Corporation. Although legally separate, this component unit is important because the City is financially accountable for them.

## **Reporting the City's Most Significant Funds**

## Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds-not the City as a whole. Some funds are required to be established by State law and by bond covenants. However, the City Council establishes many other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants and other money. The City's two kinds of funds- governmental and proprietary-use different accounting approaches.

- Governmental funds Most of the City's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in a reconciliation that follows the fund financial statements.
- Proprietary funds When the City charges customers for the services it provides, whether to outside customers or to other units of the City, these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Activities. In fact, the City's enterprise funds (a component of proprietary funds) are the same as the business-type activities we report in the government-wide statements but provide more detail and additional information, such as cash flows, for proprietary funds. We use the internal service fund (the other component of proprietary funds) to report activities of our Utility Billing department that provides services for the City's utilities.

## THE CITY AS A WHOLE

The City's combined net position decreased from a year ago-decreasing from \$80.63 million to \$79.65 million. Our analysis below focuses on the net position (Table 1) and changes in net position (Table 2) of the City's governmental and business-type activities.

# Table 1Net Position(in Millions)

	Govern <u>Activ</u>		Busines <u>Activ</u>	ss-Type <u>vities</u>	Total Primary <u>Activities</u>		
	<u>2015</u>	<u>2014</u>	<u>2015</u>	2014	<u>2015</u>	<u>2014</u>

Unrestricted, restated	(18.52)	(17.2)	15.49	12.38	(3.03)	(4.82)	
Total Net Position	<u>\$ 3.70</u>	\$ 4.64	<u>\$ 75.95</u>	<u>\$ 75.99</u>	<u>\$ 79.65</u>	<u>\$ 80.63</u>	

Net position of the City's governmental activities decreased \$.94 million from a year ago. Unrestricted net position, the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements, decreased from (\$17.2) million at June 30, 2014 to (\$18.52) million at the end of this year.

The net position of our business-type activities was relatively unchanged decreasing from \$75.99 million at June 30, 2014 to \$75.95 million at the end of this year.

Total assets and deferred outflows increased from \$152.98 million at June 30, 2014 to \$154.61 million at June 30, 2015.

The City's total revenues decreased by \$.64 million. The total cost of all programs and services increased by \$2.58 million. Our analysis below separately considers the operations of governmental and business-type activities.

## **Governmental Activities**

The cost of all governmental activities this year was \$23.20 million compared to \$20.80 million last year. Overall, the City's governmental program revenues, including intergovernmental aid and fees for services, increased in 2015 from \$4.58 million to \$6.83 million. The City paid for the remaining "public benefit" portion of governmental activities with \$6.91 million in taxes and license fees, \$2.08 million in grants and entitlements, \$.4 million of other revenues, and \$6.11 million in transfers.

Table 3 presents the cost of each of the City's five largest programs-emergency medical and fire services, police, streets, waterpark, and fuel center-as well as each program's net cost (total cost less revenues generated by the activities). The net cost shows the financial burden that was placed on the City's taxpayers by each of these functions.

## Table 3 Governmental Activities (in Millions)

		Total C of Servi			Net ( <u>of Ser</u>			
	20	15	20	)14	20	)15	<u>2014</u>

All Others		6.14		6.05		5.63		5.50
Totals	\$	23.22	\$	20.72	\$	14.31	\$	14.09

## **Business-Type Activities**

Revenues of the City's business-type activities (see Table 2) decreased by \$3.65 million (\$25.93 million in 2015 compared to \$29.58 million in 2014) and expenses increased by \$0.03 million (\$19.84 million in 2015 compared to \$19.81 million in 2014). The factors driving these results include:

• The major decrease in revenue for this fiscal year is due to the City not receiving as much Federal & State Grants. The City continues to monitor revenue and expenses in an effort to be as efficient as possible in all activities.

## THE CITY'S FUNDS

As the City completed the year, its governmental funds (as presented in the balance sheet on page 14) reported a combined fund balance of \$1.22 million.

## **General Fund Budgetary Highlights**

Over the course of the year, the City Council revised the City budget to adjust between expense categories in various funds. These budget amendments did not change the originally budgeted net income of any fund.

For the General Fund, actual revenues were \$0.70 million more than the \$6.68 million budgeted, while actual expenditures were \$0.62 million more than the expected \$12.20 million.

## CAPITAL ASSET AND DEBT ADMINISTRATION

## **Capital Assets**

At the end of 2015, the City had \$125.49 million invested in a broad range of capital assets, including police and fire equipment, buildings, park facilities, roads, bridges, and water, gas and sewer lines. (See Table 4 below.) This amount represents a net increase (including additions and deductions) of approximately \$4.33 million, over last year.

Total	<u>\$ 34.52</u>	<u>\$ 30.76</u>	<u>\$ 91.26</u>	<u>\$ 90.07</u>	<u>\$ 125.78</u>	<u>\$ 121.46</u>	

This year's major additions were:

The City is continuing its goal of improving quality of life in our town. The Marydale Project was completed in the current year and has been renamed Bourne Park. The Energy Center project has begun the construction phase with funding through USDA. Several sidewalk projects were completed around various neighborhoods as well.

More detailed information about the City's capital assets is presented in Note 5 to the financial statements.

## Debt

At year-end, the City had \$69.17 million in long term debt versus \$61.16 million last year as shown in Table 5.

## Table 5 Outstanding Debt at Year End (in Millions)

	Govern <u>Activ</u>		Busines <u>Activ</u>	• •	Total P <u>Gover</u>	2
	<u>2015</u>	<u>2014</u>	<u>2015</u>	<u>2014</u>	<u>2015</u>	<u>2014</u>

Long-Term Debt	17.41	8.91	32.31	31.79	49.72	40.70
Net Pension Liability	14.72	15.06	4.73	4.88	19.45	19.94
Totals	<u>\$ 32.13</u>	<u>\$ 23.97</u>	<u>\$ 37.04</u>	<u>\$ 37.19</u>	<u>\$ 69.17</u>	<u>\$ 61.16</u>

Insurance costs and retirement contribution percentages continue to have a major impact on the current and all future budgets. The City is continuing to pay for the employee's health coverage and plans are to continue this practice until it becomes unaffordable for the City. The retirement percentages are a major concern for all cities and all cities are lobbying the State for legislation to help in this area.

Work has continued on the Midtown Sanitary Sewer Upgrade Project. The estimated cost of construction is \$3.1 million. The City received \$1.8 million in EDA grants for this project and the City will use \$1.3 million in local funds. This project is estimated to be completed by December of 2015.

The City is looking at interest rates on current bond issues. Plans are to refinance when/if rates continue down to a favorable point.

## CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Accounting Department at Somerset City Hall, 400 E. Mt. Vernon, Somerset, Kentucky.

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Somerset, Kentucky (the City), a city of the third class, operates under the Mayor-Council form of government and provides such services as public safety, streets, parks and recreation, emergency medical services, cemetery, fuel center, waterpark, economic and community development, gas, water, wastewater and sanitation utilities. The accounting policies of the City conform to accounting principles generally accepted in the United States of America applicable to governmental units. The following is a summary of the more significant accounting policies:

### A. Reporting Entity

The accompanying financial statements of the City present the City's primary government and component units over which the Mayor and Council exercise significant oversight responsibility. Oversight responsibility, as defined by Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards, was determined on the basis of the City's ability to significantly influence operation, select the governing body, participate in fiscal management and the scope of public service. All related entities were evaluated using these criteria and the Somerset Municipal Projects Corporation was included in the general purpose financial statements. The Pulaski County Industrial Foundation was evaluated and excluded because its operations are primarily funded by a county-wide occupational tax. The Lake Cumberland Area Drug Task Force was evaluated and excluded because the board which oversees the task force contains one member from each participating government and the task force does not provide services primarily to the City.

Downtown Somerset Development Corporation was evaluated and included as a discretely presented component unit due to the amount of grant funds received from the City of Somerset (80% of total revenues and transfers in 2015) and the fact that the Corporation serves the City of Somerset area, exclusively.

#### B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the City and its component unit. For the most part, the effect of inter-fund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function, or segment, are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (CONTINUED)

#### C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary funds financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Fund financial statements report detailed information about the City. The accounts of the City are organized on the basis of funds each of which is considered to be a separate fiscal and accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that is comprised of its assets, liabilities, reserves, fund equity, revenues and expenditure or expenses.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, insurance premium taxes, occupational taxes, franchise taxes, grants and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City allocates indirect expenses primarily comprised of central governmental services to operating functions and programs benefiting from those services. Central services include overall City management, centralized budgetary formulation and oversight, accounting, financial reporting, payroll, procurement contracting and oversight, investing and cash management, personnel services and other central administrative services. Allocations are charged equally among the effected departments. These charges are reported in the statement of activities as part of transfers. As a matter of policy, certain functions that use significant central services are not charged for the use of these services. These functions or programs include public safety, public services, streets, parks and recreation and sanitation.

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

The City reports the following major Governmental Funds:

**General Fund** - The General Fund is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

**Special Revenue -** The EMS Fund is used to account for the activities of the Somerset-Pulaski County Emergency Medical Services. The City of Somerset Common Council has the responsibility of approving all expenditures by the Somerset-Pulaski County Emergency Medical Service.

**Special Revenue** - The Waterpark Fund is used to account for the waterpark activities provided to residents and visitors of the area, the operation of which is financed primarily by the general government.

**Fuel Center Fund** – The Fuel Center Fund is used to account for the activities of the fuel center provided to city departments, various organizations and the public.

**Capital Projects Fund -** The Capital Projects Fund is used to account for activity related to the construction of the Energy Center.

Proprietary funds are used to account for the ongoing organizations and activities of the City, which are similar to those found in private business enterprises. The measurement focus is upon determination of net income, financial position and changes in cash flow.

The City reports the following major Proprietary Funds:

**Gas Department Fund** - The gas department fund is used to account for the gas utility services provided to the residents and industries of the City, the operation of which is financed by user charges. The Gas Fund also collects user charges for transporting gas for producers and various gas companies.

**Water Department Fund -** The water department fund is used to account for the water utility services provided to the residents and industries of the City and area water districts, the operation of which is financed by user charges.

**Wastewater Department Fund** - The wastewater department fund is used to account for the wastewater utility services provided to the residents and industries of the City, the operation of which is financed by user charges.

**Sanitation Department Fund** - The sanitation department fund is used to account for the sanitation services provided to the residents and industries of the City, the operation of which is financed by user charges.

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

Additionally, the City reports the following fund types:

**Internal Service Fund -** The internal service fund accounts for the billing and collection activities for water, wastewater, gas and sanitation services. The operation of the fund is financed by transfers from the other departments. This fund is reported with business-type activities in the government-wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the City's gas, water, wastewater and sanitation funds and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the City's enterprise funds and internal service fund are charges to customers for sales and services. The City also recognizes as operating revenue tap fees intended to recover the costs of connecting new customers to the utility system. Operating expenses for enterprise funds and internal services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

#### **D. Fund Balance**

In fund financial statements, the difference between the assets and liabilities of governmental funds is reported as fund balance. Fund balances of the governmental funds are classified as follows:

Nonspendable – amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted – amounts constrained for a specific purpose by external parties, constitutional provisions or enabling legislation.

Committed – amounts that can be used only for specific purposes determined by a formal action of the City Council. The council is the highest level of decision-making authority for the City of Somerset. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the council.

Assigned - for all governmental funds, other than the general fund, any remaining positive amounts not classified as nonspendable, restricted or committed. For the general fund, amounts constrained, by intent, to be used for a specific purpose by the City or the elected City official given authority to assign amounts.

Unassigned - for the general fund, amounts not classified as nonspendable, restricted, committed or assigned. For all other government funds, amounts expended in excess of resources that are nonspendable, restricted, committed or assigned.

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### D. Fund Balance, continued

For resources considered to be committed, the City issues an ordinance that can be changed with another corresponding ordinance.

For resources considered to be assigned, the City has designated the Mayor to carry the intent of the City Council.

It is the policy of the City to spend restricted funds first when both restricted and unrestricted funds are available. Once restricted funds are spent, the City will use committed funds first, assigned funds second, and unassigned funds last.

	General		EMS Fund	w	aterpark	(	Fuel Center		Capital Projects Fund		ver	her mmental Inds	Go	Total overnmental Funds

#### E. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the County Employees' Retirement System (CERS) and additions to/deductions from CERS' fiduciary net position have been determined on the same basis as they are reported by CERS. For this purpose, benefit payments, including refunds of employee contributions are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

### F. Assets, Liabilities and Net Position or Equity

#### Deposits and Investments

Cash and cash equivalents include cash on hand and demand deposits. Certificates of deposit include all certificates owned by the City. Cash and cash equivalents and certificates of deposits are stated at actual cost which approximates fair value. Kentucky Revised Statute 66.480 permits the City to invest in U.S. Treasury obligations, U.S. Agency obligations, certain Federal instruments, repurchase agreements, commercial banks' certificates of deposit, savings and loan deposits, Commonwealth of Kentucky investment pool and the Kentucky League of Cities investment pool.

### Interfund Receivables and Payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### F. Assets, Liabilities and Net Position or Equity (continued)

#### Inventories

Inventories in the general and proprietary funds consist of expendable supplies held for consumption and inventory for concessions and retail sale in the waterpark stated on a first-in, first-out method. They are reported at cost which is recorded as an expenditure at the time individual inventory items are used. Inventories of the special revenue funds, other than concessions in the parks and recreation department, are recorded as expenditures when purchased rather than when consumed. Concessions inventory of the parks and recreation department are recorded at cost on the first-in, first-out method.

#### Accounts Receivable

Governmental activities accounts receivable consists of property taxes, occupational license fees, insurance premium taxes, franchise fees, service revenues and grant funds which are disbursed on an expenditure-reimbursement plan.

Business-type activities extend credit to substantially all of their customers.

The City maintains allowances for doubtful accounts based on evaluation by management and percentages applied to the various aging periods of accounts receivable. Specific accounts deemed uncollectible are charged to the allowance upon evaluation by management. Evaluation factors include familiarity with the customer, credit history and the age of the unpaid bill.

#### Capital Assets and Depreciation

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net position and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The City maintains a capitalization threshold of ten thousand dollars for assets other than Building/Land Improvements and Infrastructure. The capitalization threshold for Buildings and Building Improvements is \$50,000 and for Utility Line and Land Improvements the capitalization threshold is \$25,000.

Transfers of capital assets between funds are recorded at the net book value of the transferred asset at the time of transfer.

All reported capital assets are depreciated with the exception of land and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets.

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### F. Assets, Liabilities and Net Position or Equity (continued)

Capital Assets and Depreciation (continued)

Depreciation is computed using the straight-line method over the following useful lives for both general capital assets and proprietary fund assets:

Description	Years
Buildings and Structures	20-50
Vehicles	4-15
Other Equipment	3-25
Infrastructure	20-100

#### **Compensated Absences**

The City allows employees to accumulate unused sick leave to a maximum of 120 days. Earned vacation time is generally required to be used within one year of accrual. Upon termination, employees are given the option of taking credit towards their retirement for accumulated sick days or taking payment for fifty percent of accumulated days. Also, at termination, any accumulated vacation not taken will be paid to the employee. The City's accrued liabilities for future compensated absences are recorded to the extent the future leaves (1) relate to rights attributable to employee services already rendered, (2) relate to rights that vest or accumulate, (3) where payment is probable and (4) where amounts can be reasonably estimated. The amount of vacation liability is included in the financial statements in the accrued liabilities total. The amount of sick leave due is not practicably determinable.

Long-Term Debt and Bond Discounts/Premiums

In the government-wide and proprietary financial statements, outstanding debt is reported as liabilities. Bond discounts or premiums are capitalized and amortized over the terms of the related debt. In the fund financial statements, governmental fund types recognize the proceeds of debt and premiums as other financing sources of the current period. Issuance costs are reported as expenditures.

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### G. Budgeting

The City follows the procedures established pursuant to Section 91A.030 of the Kentucky Revised Statutes in establishing the budgetary data reflected in the financial statements. Budgets for all funds are adopted on the cash basis. With the exception of the proprietary funds, this approximates accounting principles generally accepted in the United States of America. The primary difference for the proprietary funds between accounting principles generally accepted in the United States of America and the cash basis is in the treatment of capital improvements and the related depreciation and principal payments on debt. All annual appropriations lapse at fiscal year-end, even if encumbered.

In June, the City Council adopts the annual fiscal year budgets for city operating funds. Once approved, the City Council may amend the legally adopted budget when unexpected modifications are required in estimated revenues and appropriations.

During the year the City under budgeted revenues in the Fuel Center by \$2,233,302 and under budgeted expenditures by \$2,229,441. In addition – general government, streets, public services, and emergency medical services under budgeted expenditures.

#### H. Other Accounting Policies

#### Interfund Transactions

During the course of normal operations, the City has numerous transactions between funds including expenditures and transfers of resources to provide services, construct assets, transfer assets and service debt. The accompanying financial statements generally reflect such transactions as transfers.

#### Cash and Cash Equivalents

For purposes of the statements of cash flows, the proprietary and internal service funds consider all highly liquid investments (both restricted and unrestricted) with a maturity of 90 days or less when purchased to be cash equivalents.

#### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets, liabilities, designated fund balances and disclosure of contingent assets and liabilities at the date of the general purpose financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

#### Encumbrances

Encumbrance accounting is used by the City whereby purchase orders, contracts and other commitments for the expenditures of monies are recorded in order to reserve that portion of the applicable appropriation. Encumbrances outstanding at year-end are reported as reservations of fund balances or retained earnings in the general, special revenue and enterprise funds, since the encumbrances do not constitute expenditures or liabilities, even though the City intends to honor those commitments.

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### H. Other Accounting Policies (continued)

#### Reclassifications

Certain presentations of accounts previously reported have been reclassified in these financial statements. Such reclassifications had no effect on change in net position or fund balances as previously reported.

#### I. Management's Review of Subsequent Events

The City has evaluated and considered the need to recognize or disclose subsequent events through February 2, 2016, which represents the date that these financial statements were available to be issued. Subsequent events past this date, as they pertain to the fiscal year ended June 30, 2015, have not been evaluated by the City.

#### 2. CASH AND INVESTMENTS

Custodial Credit Risks – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The government does not have a deposit policy for custodial credit risk beyond that specified in KRS 66.480.

The balances for cash and cash equivalents at June 30, 2015 are as follows:

Carrying amount	\$ 20,665,278
Bank balance	\$ 22,440,684
FDIC Insurance	\$ 2,962,289
Bank Deposit Guaranty Bond	\$ 1,013,906
Uninsured and collateral held by the pledging financial	
institution's trust department or agent and pledged to	
the City, but not in the depositor-government's name	\$ 18,085,297
Uninsured and uncollateralized	\$ 379,192

Subsequent to year end, the City has coordinated with custodial banks to ensure that sufficient collateral has been pledged to secure the City's deposits.

Investments at June 30, 2015 were all certificates of deposit or money market accounts in local financial institutions.

The Series 2011 Bond issue is dated November 1, 2011 in the amount of \$8,810,000 and carries an interest rate of 2.10 to 4.25%. The issue was intended to benefit the general fund, waterpark, wastewater department, and gas department. The issue is included on the Statement of Net Position under long-term debt as follows:

General	\$ 4,976,785
Waterpark	1,712,854
Gas department	31,677
Wastewater department	 1,333,675
Total	\$ 8,054,991

During fiscal year 2014, the City entered into a perpetual agreement with the City of Ferguson, Kentucky ("Ferguson"), in which the City obtained the sewer and gas utility system from Ferguson, in order to preserve the integrity of the utility system and to mitigate any risks regarding natural gas distribution lines, of which the City would have been held ultimately liable by governing agencies. Under the terms of the agreement, the City will pay Ferguson an amount not to exceed \$65,000 annually. A portion of this payment is considered compensation for the transfer of assets, and is being paid over a twenty year period at an interest rate of 2.0%. This amount has been recorded in the gas and sewer departments as a note payable based upon the value of each system, which has been determined to be \$33,750 and \$382,179, respectively.

## 6. LONG-TERM DEBT, CONTINUED

The annual debt service requirements to maturity for all long-term debt are as follows:

The bond ordinances contain significant limitations and restrictions on annual debt service requirements, maintenance of and flow of monies through various restricted accounts, minimum amounts to be maintained in various sinking funds and minimum revenue bond coverages. Funds held in the various reserves at June 30, 2015 required by the revenue bond ordinances are reported in the accompanying financial statements as reservations of retained earnings of the various utility funds. At June 30, 2015, the City had funds in restricted accounts in excess of the amount required by existing bond ordinances.

Interest expense of the governmental activities and business-type activities has been included as a direct function expense in the applicable function on the statement of activities.

# 7. RETIREMENT PLAN

## CERS

The City of Somerset is a participating employer of the County Employees' Retirement System (CERS). Under the provisions of Kentucky Revised Statue 61.645, the Board of Trustees of Kentucky Retirement Systems administers the CERS. The plan issues publicly available financial statements which may be downloaded from the Kentucky Retirement Systems website.

*Plan Description* – CERS is a cost-sharing multiple-employer defined benefit pension plan that covers substantially all regular full-time members employed in positions of each participating county, city, and school board, and any additional eligible local agencies electing to participate in the System. The plan provides for retirement, disability, and death benefits to plan members. Retirement benefits may be extended to beneficiaries of plan members under certain circumstances. Cost-of-living (COLA) adjustments are provided at the discretion of state legislature.

*Contributions* – For the year ended June 30, 2015, plan members were required to contribute 5% of wages for non-hazardous job classifications and 8% of wages for hazardous job classifications. Employees hired after September 1, 2008 are required to contribute an additional 1% to cover the cost of medical insurance that is provided through CERS. Participating employers were required to contribute at an actuarially determined rate. Per Kentucky Revised Statute Section 78.545(33), normal contribution and past service contribution rates shall be determined by the Board on the basis of an annual valuation last proceeding the July 1 of a new biennium. The Board may amend contribution rates as of the first day of July of the second year of a biennium, if it is determined on the basis of a subsequent actuarial valuation that amended contributions rates are necessary to satisfy requirements determined in accordance with actuarial basis adopted by the Board. For the year ended June 30, 2015, participating employers contributed 17.67% of each employee's wages for non-hazardous job classifications. The contribution rates are equal to the actuarially determined rate set by the Board. Administrative costs of Kentucky Retirement System are financed through employer contributions and investment earnings.

Plan members who began participating on, or after, January 1, 2014, were required to contribute to the Cash Balance Plan. The Cash Balance Plan is known as a hybrid plan because it has characteristics of both a defined benefit plan and a defined contribution plan. Members in the plan contribute a set percentage of their salary each month to their own account. Plan members contribute 5% of wages to their own account for non-hazardous job classifications and 8% of wages to their own account for hazardous classifications. Plan members also contribute 1% to the health insurance fund. The employer contributes a set percentage of each member's salary. Each month, when employer contributions are received, an employer pay credit is deposited to the member's account. Each member's account is credited with a 4% employer pay credit for non-hazardous members. The employer contribution.

For the year ended June 30, 2015, the City contributed \$804,991, or 100% of the required contribution for non-hazardous job classifications, and \$1,002,090, for the year ended June 30, 2015, or 100% of the required contribution for hazardous job classifications.

*Pension Liabilities, Expense, Deferred Outflows of Resources and Deferred Inflows of Resources* – At June 30, 2015, the City reported a liability for its proportionate share of the net pension liability as follows:

	Total Net				
Pe	nsion Liability	No	n-hazardous	H	lazardous
\$	<u>19,448,185</u>	<u>\$</u>	<u>8,349,736</u>	\$	<u>11,098,449</u>

# 7. RETIREMENT PLAN, CONTINUED

The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined. The City's proportionate share at June 30, 2014 was as follows:

Non-hazardous	Hazardous
.26%	.92%

The proportionate share at June 30, 2014 was equal to the proportionate share as of June 30, 2013. For the year ended June 30, 2015, the City recognized pension expense of \$1,123,400. At June 30, 2015, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	I	Deferred nflows of Resources
Differences between expected and actual results	\$	- \$	-
Changes of assumptions		-	-
Net difference between projected and actual earnings on Plan			
investments		-	1,618,400
Changes in proportion and differences between City contributions			
and proportionate share of contributions		-	-
City contributions subsequent to the measurement date	1,807,08	31	
Total	<u>\$ 1,807,08</u>	<u>31 \$</u>	1,618,400

The \$1,807,081 of deferred outflows of resources resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows:

Year ending June 30,	
2016	\$ (404,600)
2017	(404,600)
2018	(404,600)
2019	(404,600)

## 7. RETIREMENT PLAN, CONTINUED

Actuarial Assumptions – The total pension liability in the June 30, 2014 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

### Non-hazardous

Inflation Salary increases Investment rate of return	3.50% 4.50%, average, including inflation 7.75%, net of Plan investment expense, including inflation
Hazardous	
Inflation	3.50%
Salary increases	4.50%, average, including inflation
Investment rate of return	7.75%, net of Plan investment expense, including inflation

Mortality rates were based on the 1983 Group Annuity Mortality Table for all retired members and beneficiaries as of June 30, 2006, and the 1994 Group Annuity Mortality Table for all other members.

The actuarial assumptions used in the June 30, 2014 valuation were based on the results of an actuarial experience study for the period January 1, 2005-June 30, 2008.

The long-term expected return on plan assets is reviewed as part of the regular experience studies prepared every five years. Several factors are considered in evaluating the long-term rate of return assumptions including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer time frame. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

# 7. RETIREMENT PLAN, CONTINUED

The target allocation and best estimates of nominal real rates of return for each major asset class are summarized in the following table:

	Torgot	Long-term Nominal Real Rate of
Asset Class	Target Allocation	Return
Domestic Equity	30%	8.45%
International Equity	22%	8.85%
Emerging Market Equity	5%	10.50%
Private Equity	7%	11.25%
Real Estate	5%	7.00%
Core US Fixed Income	10%	5.25%
High Yield US Fixed Income	5%	7.25%
Non US Fixed Income	5%	5.50%
Commodities	5%	7.75%
TIPS	5%	5.00%
Cash	1%	3.25%
Total	100%	

*Discount Rate* – The discount rate used to measure the total pension liability was 7.75 percent. The projection of cash flows used to determine the discount rate assumed that local employers would contribute the actuarially determined contribution rate of projected compensation over the remaining 29 year amortization period of the unfunded actuarial accrued liability. The actuarial determined contribution rate is adjusted to reflect the phase in of anticipated gains on actuarial value of assets over the first four years of the projection period. The discount rate does not use a municipal bond rate.

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – The following presents the City's proportionate share of the net pension liability calculated using the discount rate of 7.75 percent, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75 percent) or 1-percentage-point higher (8.75 percent) than the current rate:

	Non-hazardous			На	zai	rdous
	Discount rate		City's proportionate share of net ension liability	Discount rate		City's proportionate share of net pension liability
1% decrease	6.75%	\$	10,987,910	6.75%	\$	14,518,048
Current discount rate	7.75%	\$	8,349,736	7.75%	\$	11,098,449
1% increase	8.75%	\$	6,019,157	8.75%	\$	8,194,243

*Payable to the Pension Plan* – At June 30, 2015, the City reported a payable of \$393,422 for the outstanding amount of contributions to the pension plan required for the year ended June 30, 2015. The payable includes both the pension and insurance contribution allocation.

# 8. PROPERTY TAX CALENDAR

Property taxes for fiscal year 2015 were levied in September, 2014 on the assessed valuation of property located in Pulaski County as of the preceding January 1, the lien date. The due date and collection periods for all taxes exclusive of vehicle taxes are as follows:

Description	Per K.R.S. 134.020
1. Due date for payment of taxes, 1% discount	November 1
2. Face value amount payment due	November 2 through December 31

Vehicle taxes are collected by the County Clerk of Pulaski and are due and collected in the birth month of the vehicle's licensee.

# 9. TRANSFER OF FUNDS

The following transfers were made during the year:

From Fund	To Fund	Purpose	Amount
General	Parks & Recreation	General Operations	\$ 1,488,250
General	Fuel Center	General Operations	\$ 150,000
General	Cemetery	General Operations	\$ 43,950
General	Waterpark	General Operations	\$ 182,250
EMS	General	Indirect cost reimbursement	\$ 25,000
Gas	General	General operations	\$ 1,500,000
Gas	General	General operations	\$ 1,125,000
Gas	General	Indirect cost reimbursement	\$ 50,000
Gas	Internal Service	General operations	\$ 96,001

Wastewater	General	Indirect cost reimbursement	\$ 50,000
Wastewater	Internal Service	General operations	\$ 96,001
Wastewater	General	Fixed Asset Transfer	\$ 4,500

## **10. INDUSTRIAL REVENUE BONDS**

The City is the issuer of certain industrial revenue bonds issued in order to promote the local construction of production facilities. The facilities, which are constructed from the bond proceeds, are leased to the industrial companies for an amount required to annually service the debt. The lessee assumes ownership of the facilities at the completion of all lease payments required to fully service the debt. The lease payments are remitted directly to the trustee (bank) with whom the facilities are mortgaged. These bonds constitute a limited obligation of the City, payable solely from the revenues and receipts derived from the lease agreement. Accordingly, the assets and liabilities relating to these bonds are not recorded on the books of the City.

# **11. LEGAL CONTINGENCIES**

The City is subject to legal actions in various stages of litigation, the outcome of which is not determinable at this time. City officials and legal counsel believes these actions are without merit, adequately covered by insurance or that the ultimate liability, if any, will not materially affect the City's financial position.

## 12. RISK MANAGEMENT

The City is exposed to various form of loss associated with the risks of fire, personal liability, theft, vehicular accidents, errors and omissions, employee injury, fiduciary responsibility, etc. Each of these risks areas is covered through the purchase of commercial insurance. The City has purchased certain policies which are retrospectively rated which include worker's compensation insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

# **13. RESTATEMENT OF NET POSITION**

## Waterpark Reclassification

The beginning net position of both governmental and business-type activities has been restated due to the reclassification of the Waterpark from a proprietary fund to a governmental fund. The beginning fund balance of the Waterpark has also been restated on the fund financial statements to remove capital assets and long-term debt. The effect of this restatement on beginning net position and fund balance is included with the GASB Statement No. 68 restatement which is outlined below.

## Implementation of new accounting standard GASB Statement No. 68

During 2015 the City implemented GASB Statement No. 68, Accounting and Financial Reporting for Pensions, which addresses financial reporting for state and local government employers whose employees are provided with pensions through pension plans that are covered under Statement No. 67, Financial Reporting for Pension Plans.

## **13. RESTATEMENT OF NET POSITION, CONTINUED**

The guidance contained in Statement 68 changed how governments calculate and report the costs and obligations associated with pensions. Under the new standards GASB requires that cost-sharing governments report a net pension liability, pension expense, and pension related deferred inflows and outflows of resources based on their proportionate share of the collective amounts for all the governments in the plan. In addition, GASB requires Statement 68 to be applied retroactively, which along with the reclassification of the Waterpark fund has resulted in a restatement of beginning net position as follows:

# **Governmental Activities**

Net position, at beginning of year Beginning net pension liability Waterpark reclassification	\$	16,047,479 (15,064,083) <u>3,659,040</u>

#### INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Mayor and City Council City of Somerset, Kentucky

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Somerset, Kentucky, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the City of Somerset, Kentucky's basic financial statements, and have issued our report thereon dated February 2, 2016.

### Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Somerset, Kentucky's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Somerset, Kentucky's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Somerset, Kentucky's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

## INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS (CONTINUED)

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City of Somerset, Kentucky's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance or other matters that are required to be reported under *Government Auditing Standards*, which is described in the accompanying schedule of findings and questioned costs (2015-001).

#### City of Somerset, Kentucky's Response to Findings

The City of Somerset, Kentucky's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The City of Somerset, Kentucky's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

RFH, PLLC February 2, 2016

Executive Office of the President High Intensity Drug Trafficking Areas Program	95.001	22,297
Total Federal Financial Assistance		<u> </u>

(1) PassThrough Grantor - Commonwealth of Kentucky, Transportation Cabinet, Office of Highway Safety

#### **Basis of Presentation**

The accompanying schedule of expenditures of federal awards includes the federal grant activity of the City of Somerset and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of **OMB Circular A-133**, **Audits of States, Local Governments, and Non-Profit Organizations.** Therefore, some amounts presented in, or used in the preparation of, the basic financial statements may differ from these numbers.

### INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

To the Mayor and City Council City of Somerset, Kentucky

#### Report on Compliance for Each Major Federal Program

We have audited the City of Somerset, Kentucky's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the City of Somerset, Kentucky's major federal programs for the year ended June 30, 2015. The City of Somerset Kentucky's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

#### Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the City of Somerset, Kentucky's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations.* Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City of Somerset, Kentucky's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City of Somerset, Kentucky's compliance.

# **Opinion on Each Major Federal Program**

In our opinion, the City of Somerset, Kentucky, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2015.

# INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133 (CONTINUED)

# **Report on Internal Control over Compliance**

Management of the City of Somerset, Kentucky, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City of Somerset, Kentucky's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City of Somerset, Kentucky's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

# **II. FINDINGS RELATED TO FINANCIAL STATEMENTS**

#### #2015-001 – Compliance

## Condition:

During the prior fiscal year, the City began work on an amphitheater project in the parks and recreation department. The costs associated with this project were mainly comprised of excavation and concrete work. While the City obtained bids for the concrete costs, they failed to follow the appropriate procurement procedures regarding bid compliance in relation to the excavation costs, which exceeded the threshold for advertising for bids. The project continued in the current year and again excavation costs exceeded the threshold for advertising for bids. The City also failed to advertise for bids for other purchases including tree trimming and additional excavation work. See Prior Year Finding 2014-001.

## Criteria:

As described in Kentucky Revised Statute 424.260, the City is required to advertise for bid involving an expenditure of more than \$20,000 before entering into a contract.

## CITY OF SOMERSET, KENTUCKY SCHEDULE OF FINDINGS AND QUESTIONED COSTS, Continued for the year ended June 30, 2015

## #2015-001 - Compliance

### Cause:

The excavation costs related to this project were initially estimated to be less than the bid requirement; however, excavation costs were substantially more than expected. By the time that the additional cost was communicated to management, the bid threshold had been exceeded. The additional excavation work and tree trimming was not anticipated to exceed the bid threshold and was therefore not advertised for bid.

## Effect:

The City failed to properly comply with KRS 424.260.

#### Recommendation:

We recommend that all projects with a cost greater than \$20,000 be advertised for bids as required by KRS 424.260.

### Response:

The Rocky Hollow Amphitheater project has been completed. The City encountered several unforeseen circumstances during this project. We are reviewing and implementing new practices to help us ensure that we are more efficient in the future. These practices will help us make a better effort to enforce the provisions of the City's own procurement policies as well as those in the Model Procurement Code.

# **III. FINDINGS AND QUESTIONED COSTS FOR FEDERAL AWARDS**

NONE

## CITY OF SOMERSET, KENTUCKY SCHEDULE OF FINDINGS AND QUESTIONED COSTS, Continued for the year ended June 30, 2015

# **IV.PRIOR YEAR FINDINGS**

## #2014-001 - Financial Reporting

#### Cause:

The City does not have personnel in place to handle the year-end financial reporting process. As a result, the City relies heavily on outside assistance which causes a delay in year-end close. Furthermore, the consultant works outside of the City's financial reporting system. This makes it difficult for management to properly review and approve proposed adjustments.

## Effect:

The City's financial statement audit was delayed for the fiscal year ended June 30, 2014 and material adjustments were necessary to reasonably state the financials.

#### **Recommendation:**

We recommend management design control policies and procedures to ensure the year end adjustments and annual financial reporting occur in a more timely fashion and this process is more closely monitored by management.

#### Status: Audit finding was resolved.

## #2014-002 - Compliance

*Cause:* The excavation costs related to this project were initially estimated to be less than the bid requirement; however, excavation costs were substantially more than expected. By the time that the additional cost was communicated to management, the bid threshold had been exceeded.

## Effect:

The City failed to properly comply with KRS 424.260.

#### **Recommendation:**

We recommend that all projects with a cost greater than \$20,000 be advertised for bids as required by KRS 424.260.

Status: Bid compliance is a repeat finding in the current year. See #2015-001.
